SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This supplemental information disclosure statement is filed pursuant to 37 CFR §1.97. It was filed after the first office action but before a notice of allowance. Therefore, a fee under 1.17(p) is enclosed with form PTO/SB/08A and copies of the disclosed documents.

As with a previous submission dated December 23, 2002, the materials submitted herein are in response to a court document¹ submitted by the defendant in *Erchonia Medical Inc, et al v. Smith, et al*, Case No. 02-CIV-2036, U.S. District Court, District of Arizona. The defendant alleges that the following prior art is material to the validity of the patent. Applicant disputes that that prior art is material to the validity of the patent, which is why Applicant did not submit it when first learned of it on or about March 3, 2003, but now discloses the prior art to avoid the risk of further allegations that there was intent to deceive the Patent Office.

As to the documents submitted in German, pursuant to 37 CFR §1.98 (a)(3)(ii), an English language translation is not provided because Applicant is not in possession,

¹ Robert E. Moroney and Robert E Moroney, LLC's Bench Memorandum Re: Effect of Reissue Application for U.S. Patent 6,013,096 dated July 28, 2006.

custody, or control of such translation, nor is such translation readily available to any individual designated §1.56(c). Defendants have not disclosed any English-language translation.²

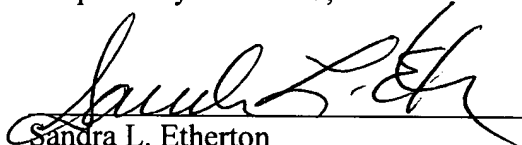

Furthermore, because Applicant does not know the origin of these documents, Application cannot attest to their publication dates or other information normally listed on an information disclosure statement. For the purposes of form PTO/SB/08A, Applicant assumes that the date listed on any document is the publication date, but reserves the right to challenge such date listed thereon.

Finally, as to the court documents submitted relating to claim construction, all assertions made by Applicant during litigation are consistent with those made to the Examiner during prosecution. Therefore, Applicant does not believe they are material under 2001.06(c). However, despite the Office's express desire not to receive "voluminous litigation materials which are not relevant to the Office's consideration for the reissue application," as explained in MPEP §1442.04, Applicant submits these herein to avoid the risk of further allegations that there was intent to deceive the Patent Office.

Date:

8/10/2006

Respectfully submitted,

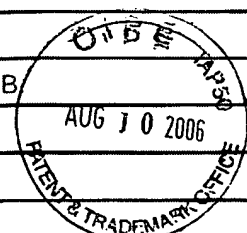

Sandra L. Etherton

² Applicant cannot explain how defendant alleges the German references are material if no English-language translation is provided, since, upon information and belief, neither defendants nor their representatives read or speak German to a technical proficiency.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it contains a valid OMB control number.
